

**Your connection
journey**

e-on

We can help you with the entire connections process from infrastructure, one-off gas and electricity connections to major multi-utility projects.

Call us on
0333 202 4920

Your connection journey

You'll have a dedicated account manager to help and support you through every step.

1. Getting started

First, you'll need to find out your electricity and gas supply numbers. For electricity, this is known as your Meter Point Administration Number (MPAN) and you can get it from your local electricity distributor. If you're not sure who it is, you can find out at energynetworks.org

For gas, it's called your Meter Point Reference Number (MPRN). To get it, simply call the MPRN enquiry line on **0870 608 1524** and ask for your MPRN. We'll also need some details about your energy use.

2. Registering your premises

Give us a call on **0333 202 4920** to go through your requirements. Or if you prefer, you can download an application form from our website at eonenergy.com/businessconnectionsdownloads and send it back to us. We're on hand to help if you have any questions.

3. Your quote

We'll email you a quote for your meters. If you're happy with it, simply sign it and send it back to us.

4. Preparing for your meters

Once we've received your signed quote, your premises are ready and any relevant infrastructure work has been done, you'll need to get in touch with us on **0333 202 4920** or contact your account manager directly to arrange your meter installation.

5. Fitting your meters

We offer flexible one day slots for meter fitting and will aim to fit your meters on the day or days that suit you best.

6. Billing

We'll automatically send you bills for the energy you use.

7. And finally

Your dedicated account manager will be on hand to help you with any other projects or premises you may have, both now and in the future.
